

Art Specs

Advertisement Sizes:

Large 17x48 3m Transit Material with Gloss Laminate

Production Ready Setup Files should be sent production ready, at 100% scale and elements placed. If your files are not actual size, please indicate the scale in which they were produced. Two DIFFERENT files should be created and submitted - the second for use on shorter buses. Ad sizes are as follows:

Layout Instructions: *For 17x48 Sample pics are a mix of large and medium*

There are two different variations to layout the creative to address the black rub rail on school buses (Rub rails are 3 inches) the first is to leave 1/2 to 1 1/2 inch at the top and bottom so that the lettering will fit as shown see attached sample 1:

Sample 1

Second Variation:

On the second variation provide 3 inches from the top and 3 inches from the bottom see sample 2:

Sample 2

MULLICA HILL

DEF ONLY

The length of the art work should allow atleast 1 inch from the edge of each end and the height should be no more than ½ from the edge top and bottom.

Setup Guidelines:

Bleed: Include at least 1 inch bleed past the finished size. **Safe Area:** Important message information should centered within a 16"x47" area to try and limit distortion from rub-rails. **Fonts:** Include all fonts used on the graphic even if all the type has been converted to outlines.

Color Format: Convert all RGB files to CMYK and if possible, submit a layered version of your file (color matching the "yellow" bus paint cannot be done). **Inks:** Rich Black (Graphics Standard) - C-30 / M-30 / Y-20 / K-100

Formats:PDF files are recommended

Acceptable method of file delivery:

Third-Party Service: A 3rd Party service like, Google Drive, DropBox or YouSendit.com may be used (sent to this email schoolbusadvertising@gmail.com). **E-Mail:** Files may be emailed only if the file size is 50MB or- less.
